### Properties Of

Exponents  
Answers

Multiplying like bases. Add the exponents.  $a^n \cdot a^m = a^{n+m}$ ; Power of a power. Multiply the exponents.  $(a^n)^m = a^{nm}$ ; Power of a product. Raise each part of the product to the power.  $(ab)^n = a^n b^n$ ; Negative exponent property. To make the negative exponent positive, move the base and its exponent to the opposite location in the fraction.
