You will learn simple but vital rules to follow in thinking about any topic at all and common and tempting mistakes to avoid in reasoning. We will discuss how to identify, analyze, and evaluate arguments by ...

Think Again I: How to Understand Arguments | Coursera

A different but complementary way of viewing an argument is to treat it as a particular use of language: Presenting arguments is one of the important things we do with words. This approach stresses that arguing is a linguistic activity. Instead of studying arguments as abstract patterns, it examines them as they occur in concrete settings.

The book also does not contain any form of answer key. So you get a lot of questions/problems to work, which is nice, but there are zero answers for them. Also they do not tie everything directly back into understanding arguments. By this I mean taking an op-ed or related material and deconstructing it using everything learned.
