Nissan QD engine - Wikipedia

I have a nissan atlas with td27 in it, I am lucky if I get over 200kms out of a tank of diesel, have done all filters and it doesn't blow clouds of black smoke when being driven. It has done 720,000kms and has nothing done to the engine except new seals in injector pump 5 yrs ago. The fuel consumption has slowly been getting worse in last six months. Does anybody have any ideas. Thanks
