The New Tax Law: 21 Changes You Need To Know Before Filing ...

The Tax Policy Center says you should see an additional \$7,640 in after-tax income on average, a difference of about 1.6% if you earn between \$149,400 and \$308,000 a year. That's nothing to sneeze at, and it jumps to about 4.1% if you earn more than \$308,000—somewhere in the neighborhood of \$13,480 in increased after-tax income annually.

The New Tax Law: Will You Win or Lose This Year?

Tax rates increase as income rises, and only one standard deduction can be claimed on each tax return, regardless of the number of jobs. Therefore, if you have more than one job at a time or are married filing jointly and both you and your spouse work, more money should usually be withheld from the combined pay for all the jobs than would be withheld if each job was considered by itself.
