The purpose of pre-production is to ensure that all the planning and pre-productions is carried out effectively before the day of filming, or example, availability of cast, crew and locations. This is essential as without it the production would fail. I am going to combine this unit with Unit 10 where I am going to be making a short film.

Unit 4: Electrons in Atoms If you have heard of electrons you know that they have something to do with electricity and atoms. If so you are mostly right in describing what are electrons. Electrons are the subatomic particles that orbit the nucleus of an atom. They are generally negative in charge and are much smaller than the nucleus of the atom.

unit 4: motion, change, & transportation safety There is a greater risk of being injured or killed while travelling in a motor vehicle than when engaging in other common activities. Recognizing risk, governments and the transportation industry are working on new safety systems and practices designed to protect passengers.
